SUMMER 2009

CLOSING EXHIBITION REMINDER

Todd Hebert and Jennifer Nehrass

On view July 11 – August 15, 2009

There's still time to see the works that David Pagel (LA Times) asserts "balance intimacy and distance in ways that leave plenty of room for melancholy and optimism, realism and mystery." MMG is thrilled with the outpour of positive response to both Todd and Jennifer's newest bodies of work, including two acquisitions by the Frederick R. Weisman Foundation and numerous reviews.

SONIC IV

Ultrasonic IV: Fresh Perspectives

Featuring: **Josh Azzarella, Tim Barber, Matthew McGuinness, Walter Martin and Paloma Muñoz, and Mario Ybarra Jr.**

September 12 – October 10, 2009

This rigorous faction of artists presents astute interpretations of the subjective parameters of reality through an array of mediums and observations. As each of the five artists showcased in Ultrasonic IV reference a distinctive verisimilitude, they share a collective interest in addressing the relativity of experience in perception.
